

GETTING READY  
FOR WINTER  
TAKES MORE  
THAN A  
CUTE HAT!

Call Robért Refrigeration for a  
Heating System Safety  
Inspection & Cleaning

A tune up of your system will accomplish many things including:

- Check for any cracks that have the potential for carbon monoxide leaks.
- Calibrates thermostat for proper temperature output.
- Helps prevent untimely breakdowns.
- Restores capacity, reduces running time, and therefore, it reduces energy bills.
